Examiner, Art Unit 2454

Reasons for Allowance

1. The following is an Examiner's Statement of Reasons for Allowance:
Claims 1-17 are allowable over prior art of record.
2. Based on the BPAI decision dated July 1, 2010, Dea and Goodman (*prior art of record*) each describe portions of the claimed invention. However, the similarities between Dea and Goodman are not strong enough to produce the claimed routing of registration messages to peripheral devices on the CAN bus, routing of heartbeat messages on the CAN bus and the routing of messages on a discrete basis over the CAN bus to control peripheral devices.
3. Although Dea describes the use of a periodic heartbeat pulse to poll stations in a network, Goodman describes the use of a CAN bus to connect a nodal network, and both references describe use of the Ethernet, the BPAI concluded that it would not have been obvious to one of the ordinary skilled in the art at the time of the applicants' invention to combine the teachings of Dea and Goodman to arrive at the specifically claimed registration of the plurality of processor-enabled peripheral devices with the controlling software component as set forth in claims 1 to 11, the periodic heartbeat message sent from the controlling software component to the plurality of processor-enabled peripheral devices to enable each of the peripheral devices to maintain its registered status as set forth in claims 1 to 11, and the messages routed from the controlling software component to one or more of the peripheral devices on a discrete basis on the CAN bus to control the one or more peripheral devices as set forth in claims 1 to 17. Therefore, claims 1-17 are allowable over the prior art of record for the aforementioned reasons.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "*Comments on Statement of Reasons for Allowance*"
